

<b>About the Measure</b>	
<b>Domain:</b>	Social Determinants of Health
<b>Measure:</b>	Percent Unionized for Non-Agricultural Labor Force
<b>Definition:</b>	Percent unionized for non-agricultural labor force is the percentage of wage and salary workers who are members of unions or are covered by union agreements in the private and public sectors of the non-agricultural labor force by state and metropolitan area.
<b>Purpose:</b>	Unions can affect an employee's wages and fringe benefits, including paid leave, health benefits, and pension plans. In addition, the competitive influence of union employers can affect the pay, benefits, and workplace safety of employees at non-union sites in the same labor market.
<b>Essential PhenX Measures:</b>	None
<b>Related PhenX Measures:</b>	None
<b>Measure Release Date:</b>	

<b>About the Protocol</b>	
<b>Protocol Release Date:</b>	
<b>PhenX Protocol Name:</b>	Percent Unionized for Non-Agricultural Labor Force
<b>Keywords:</b>	Bureau of Census for the Bureau of Labor Statistics, Current Population Survey, CPS, Estimates by Spatial Units, Labor Force Items, Labor Force Statistics, Salaried Workers, Union Membership Rate, Unionized Workers, Unions, Wage
<b>Protocol Name from Source:</b>	Current Population Survey, Labor Force Items
<b>Description:</b>	The protocol describes how to extract data on labor union membership, coverage, and density estimates from variables collected through the Current Population Survey.
<b>Specific Instructions:</b>	None

<p><b>Protocol:</b></p>	<p><b>Percent Unionized for Non-Agricultural Labor Force</b></p> <p>Access to historical data of union membership or jobs covered by a union can be found at the Bureau of Labor Statistics website (<a href="https://www.bls.gov/cps/cpslutabs.htm">https://www.bls.gov/cps/cpslutabs.htm</a>). Union affiliation can be accessed from three tables.</p> <p><b>Table 1. Union affiliation of employed wage and salary workers by selected characteristics</b></p> <p>Selected characteristics include age and sex; race, Hispanic or Latino ethnicity, and sex; full- or part-time status. For each characteristic, the user may view employment and union membership data.</p> <p><b>Table 3. Union affiliation of employed wage and salary workers by occupation and industry</b></p> <p>Occupation categories include Management, professional, and related occupations; Service occupations; Sales and office occupations; Natural resources, construction, and maintenance occupations; Production, transportation, and material moving occupations; and related subcategories for each.</p> <p>Industry categories include Private and Public sector and related subcategories.</p> <p>For each characteristic, the user may view employment and union membership data.</p> <p><b>Table 5. Union affiliation of employed wage and salary workers by state</b></p> <p>For each US state selected, the user may view employment and union membership data.</p> <p><b>For all data in the tables:</b>  Total employed = Total number employed</p> <p>Members of unions = members of a labor union or an employee association similar to a union</p> <p>Members of unions (Total) = Total number of members of a labor union or an employee association similar to a union</p> <p>Members of unions (Percent of employed) = The percentage of members of a labor union or an employee association similar to a union out of the total number employed</p> <p>Represented by unions = both union members and workers who report no union affiliation but whose jobs are covered by a union or an employee association contract</p>
-------------------------	--

	<p>Represented by unions (Total) = Total number of both union members and workers who report no union affiliation but whose jobs are covered by a union or an employee association contract</p> <p>Represented by unions (Percent of employed) = The percentage of both union members and workers who report no union affiliation but whose jobs are covered by a union or an employee association contract out of the total number employed</p> <p>Numbers reported are in the thousands.</p> <p>After retrieving results, the user may adjust the range of years for which data is shown, and also has the option to include line graphs. All data will have downloadable excel files.</p>
<b>Selection Rationale:</b>	The U.S. Census Bureau has been conducting the Current Population Survey (CPS) since 1940. This survey collects up-to-date facts about the number of Americans who are employed, unemployed, or not in the market for jobs.

<b>Availability:</b>	Publicly available
<b>Life Stage:</b>	Adolescent, Adult, Senior
<b>Language:</b>	English
<b>Participant:</b>	Not applicable, derived from publicly available secondary data
<b>Personnel and Training Required:</b>	Knowledge of census Federal Information Processing Standards (FIPS) codes and access to Excel or other statistical software to read the data and conduct further analysis
<b>Equipment Needs:</b>	Access to a desktop or laptop computer with Internet access to download raw data from the Bureau of Labor Statistics (BLS) of the U.S. Department of Labor's website, Labor Force Statistics from the Current Population Survey ( <a href="https://www.bls.gov/cps/cpslutabs.htm">https://www.bls.gov/cps/cpslutabs.htm</a> ). Statistical packages (e.g., Excel, SPSS, SAS) for data manipulation.
