

Genomic Medicine Resources and Consortia

All of Us (see slides for a few protocols)

CDE (Common Data Element) Repository – Subject Areas of NIH CDE Initiatives

https://www.nlm.nih.gov/cde/subject_areas_1.html

CSER - Clinical Sequencing Exploratory Research (CSER Phase 1) Consortium

<https://cser-consortium.org/cser-research-materials>

ECHO - Environmental Influences on Child Health Outcomes

(see slides for a few protocols)

ELSI Resources – NHGRI's ELSI Publications and Products Database (note that this resource needs to be updated, which is expected week of 10/28/19)

<https://www.genome.gov/Funded-Programs-Projects/ELSI-Research-Program/Publications-Products-Database>

EMERGE Network (electronic medical records and genomics)

<https://emerge-network.org/>

“FOCUS” - Framework for Outcomes in Clinical Communication Services

<https://www.focusoutcomes.com/>

IGNITE – implementing genetics in practice (see slides for a few protocols)

https://gmkb.org/?utm_source=ignite-genomics.org&utm_medium=referral

PheKB – a knowledgebase for discovering phenotypes from electronic medical records

<https://phekb.org/>
